ADVANCED RESEARCH PROJECTS

Conduct real research to be the scientists of tomorrow

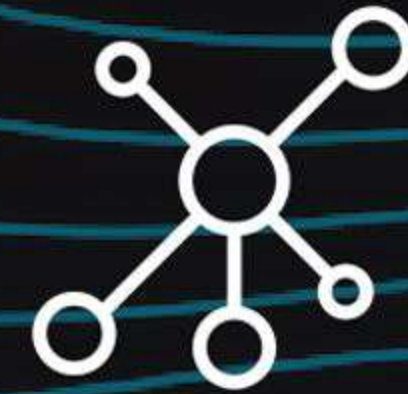

Our students make up **50%**
or more of the teams
representing Singapore in
the Math and Science
International Olympiads

We have more than **100**
partners in **31** countries
& regions across **20**
industry sectors

We have **180** students
per cohort from over
70 primary schools

At least half of our
students took university
modules across
10 disciplines

100% OF
OUR STUDENTS

LEARN FROM INTERNSHIPS & INDUSTRY EXPERTS

Develop collaborative skills and adaptable mindsets, to approach challenges differently.

COMPLETE RESEARCH / INNOVATION PROJECTS

Develop and demonstrate their originality and ingenuity by engaging in discovery and invention, managing uncertainty with critical thinking and problem-solving skills.

PURSuing PASSIONS AND INTERESTS OUTSIDE OF CLASSROOM

Delight in exploring a full spectrum of disciplines, pursue their wonderment across boundaries, and foster their fearless curiosity and love for learning.

INITIATE AND IMPLEMENT REAL WORLD PROJECTS TO IMPACT SOCIETY

Deepen their sense of empathy and bring their STEM knowledge and skills to bear on community issues.
